

**Welcome to  
Blue Series  
Winches**

The Blue Series winches are manufactured in Australia, with the majority of the components machined in our own workshop. This guarantees availability of replacement parts and quality of service. We also use Australian manufactured CMG brand electric motors, renowned for their strength and reliability.

The range boasts steel frame, steel shafting and strengthened K 1045 steel machine cut gears for added strength and longer life. These features all contribute to a product range that is incredibly reliable, efficient and strong. We have been selling these particular winches for more than 25 years and most are still in service today.

**Blue Series Winch ( Heavy Duty )  
Larger Size Boats**

Quick Guide To Blue Series Winches		
Slope	Gradient	Weight
*eg. ( 1 : 12 )	5°	15000 kg
( 1 : 4.5 )	12.5° *	7000 kg
( 1 : 3.75 )	15°	5700 kg
( 1 : 2 )	27°	3800 kg

\*Standard boat ramp angle.  
\* eg. Slope = (1m fall : 12m in length)  
Note: Based on rolling load over good quality surface.

**STANDARD FEATURE**

- All steel machine cut gears
- 1.7kw 240v Electric motor
- Automatic fail safe brake
- Greasable ball bearings
- Forward and reverse pendant control, 3m lead with 3 pin plug
- 30m of 8mm dia aircraft cable
- Max winch drum storage capacity 70m of 8mm aircraft cable
- **Optional radio remote control**
- **Optional 24 volt hand control**

**All steel construction**

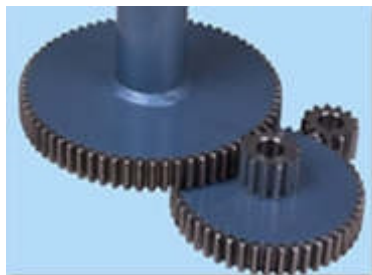

**High tension wire rope**

**Heavy duty bearings.**

**APPLICATIONS**

- **Ratio** 126 : 1
- **Average line speed** 4.6m/min
- **Capacity** 7000kg on wheeled trailer up 12 1/2° ramp
- **Weight** 110kg
- **Dimensions** 520mm wide x 760m long 3750mm high

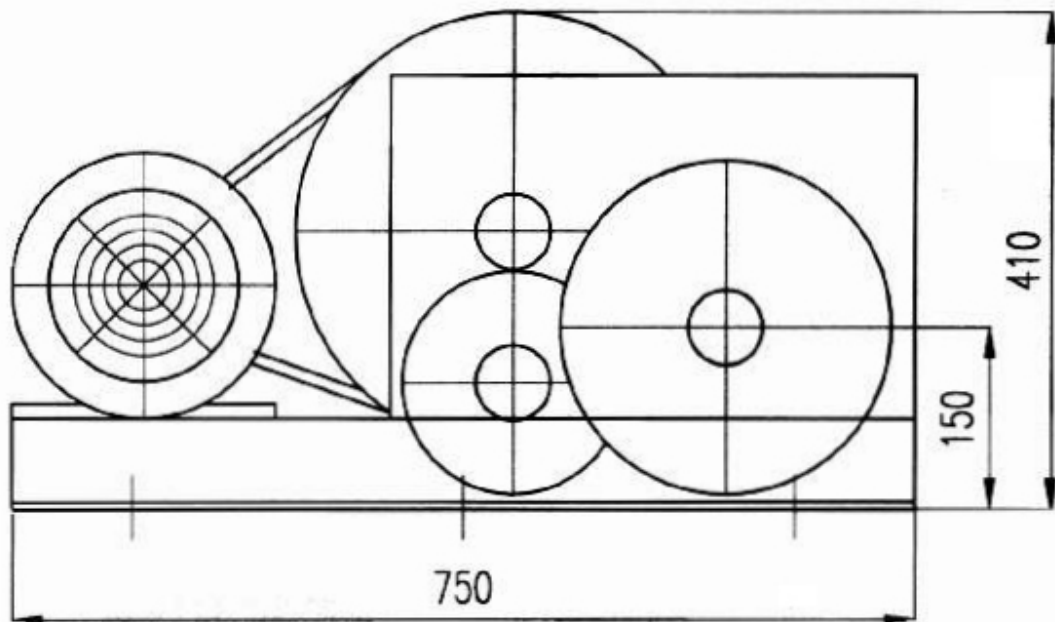

**Quality machine cut gears**
