

Multi Purpose Safety Strap

* Fridge & trolley shown for illustration only

Think Safety First !

Our Multi Purpose Safety Strap has been designed for many applications. One of the main applications is for securely holding heavy goods on a hand trolley, such as the fridge trolley, as shown above.

The design of the formed body ensures the shaft remains an integral part. It comes complete with a replaceable 3.5 metre long strap. Cup head bolts are used for easier assembly. Spring allows for easy height adjustment. Comes packaged in a carton of 5.
